

PROFESSIONAL STUNT DRIVING

# *A journey of experiences*

01

Embark on an unparalleled corporate opportunity with our exclusive Stunt Driving Day, led by the esteemed Drivetac academy. This extraordinary experience offers a rare opportunity to dive into Day 1 of a comprehensive BSR accredited stunt course typically reserved for industry professionals.

Crafted by precision stunt experts, trained in Hollywood, with accolades in films including Drive, Bourne, and other blockbusters. This course is meticulously designed to cater to the unique requirements of the film and TV.

Delve into the intricacies of stunt driving as you explore the 'why and the how' behind each manoeuvre, from understanding the physics, to mastering control systems and cultivating mechanical sympathy. This specialised training covers a spectrum of techniques specific to the cinematic world, encompassing forward slalom, hand, feet, and eye synchronisation, as well as various hand-braking techniques - all under the expert guidance of seasoned professionals.

“

The team headed up by Sam not only explained the skills in way that I could understand, but they all get behind the wheel when necessary to demonstrate the techniques - a crucial part of the learning process. The level of film set knowledge and application for driving stunts makes the course an absolute must.

Jason Symonds
